

BRIGHT Soli

Packable reliable hands-free light and emergency power, engineered for large scale deployment.

A compact light and emergency power system designed for humanitarian response and emergency preparedness — essential light, solar-optional charging, and emergency phone top-up charging capability in a modular format built to ship efficiently, last for years, and work the moment it is needed.

- Ultra-compact modular design — lamp and flexible solar panel packed separately for high-density storage and shipping
- 130+ hours of continuous light on low mode — the 72-hour emergency window covered on a single charge
- LiFePO4 battery rated for 2,000 charge cycles and a service life of 5-7 years under regular use
- Charges via a USB-C wall charger or optionally via an ETFE solar panel
- Stands, hangs or clips on hands-free

Long-lasting (5-7 year service life) & repairable

2 years Standard Warranty

Designed for ease of repair and recycling

Weatherproof (IP65-rated) & floats

BR!GHT

Technical Specifications

Rev 02

BRIGHT Soli

Brightness (max)	100 lm
Color	4,000 Kelvin
Light Settings	
Low	5 lm
Medium	20 lm
High	100 lm
Emergency	Strobe
Runtime	
Low	130 hours +
Medium	30 hours +
High	5 hours +
Battery Type	LiFePO4
Battery Capacity	5.12 Wh
Battery Lifespan	2,000 cycles
Charge Time *	Solar 4 hours + Wall charger 1.5 hours +
Solar Panel Type	Monocrystalline
Solar Panel Output	2Wp $\pm$ 5% at 5 V
Height / Weight	11cm / 170 grams (unit weight)
Input / Output port	USB-C
Ingress Protection	IP65

* Solar charge at 1000 W/m², 25 °C; Wall charger at 5W

USB-C phone
charging

Packable
11cm tall
